First steps in CATIA General Structural Analysis

A short tutorial about how to use the principal steps in CATIA Analysis and simulation -> General Structural Analysis module. It is simple now to find the limit of materials and how to make a part without resistance problems. 1. The first step is to Open or Create the part that you want to be simulated. 2. Now you should apply a material, in my case Steel. Is very important to apply a material because without this you can't run the simulation.
